#4

We know, being a cube all day sounds awesome.

While it might be hard to understand why would anyone wants more than that, our story begins with a Cube who is ready for an adventure through dimensions to find more to that. Will the Cube find what it seeks at the end of its journey and will you be there to help?

A Cube Story is a minimalist isometric story/platform/puzzle game where you can control a cube.

Transformation

The story starts with Square that is stuck into 2 dimensions, finding a way to 3 dimensions. As the game progresses Cube acquires new skills and uses them to complete levels and reach higher levels of reality.

Narrative

We will keep the player informed with narratives and tutorials as the new skills are unlocked and story progresses.

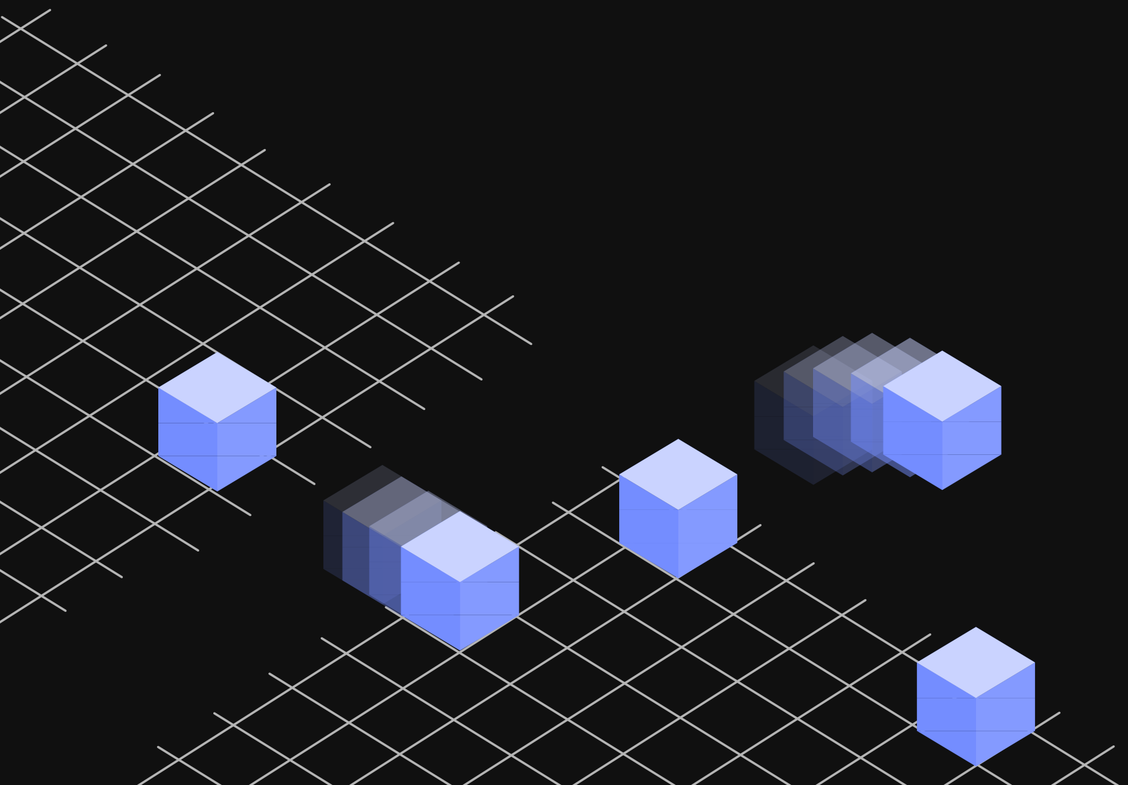
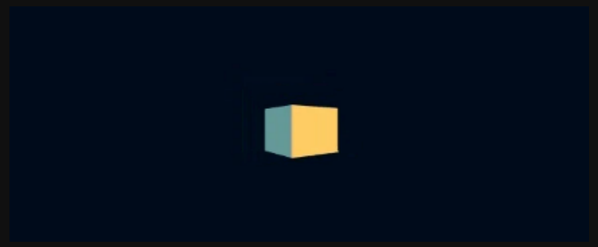
#9

movement/platform

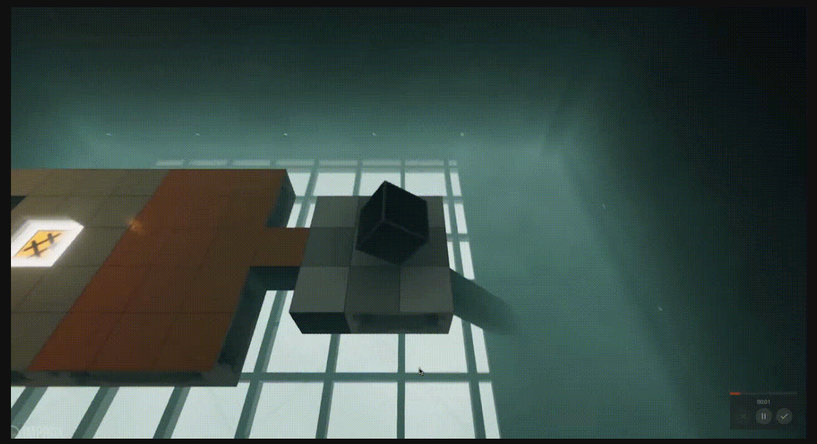
Imagine a cube with athletic skills such as jumping and dashing. Cube also can perform them at the same time!





#10

Obviously it can move on the platform freely by rotating around itself.



Those abilities provide us different and non-repetitive alternatives in level designing.

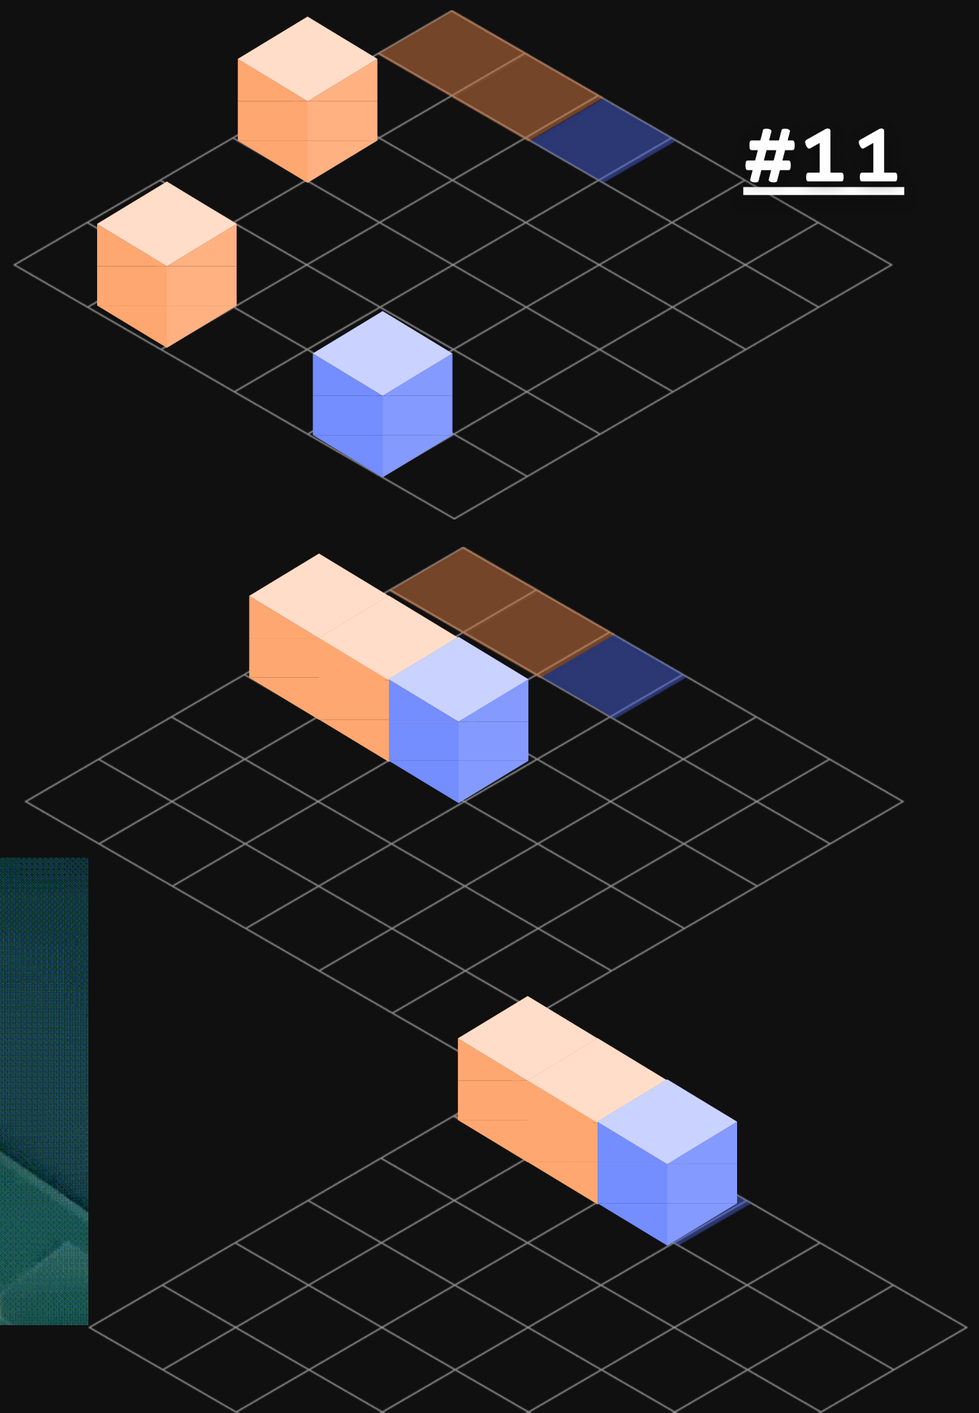
merging cubes

#11

To complete a level
you need to solve
unique puzzles.

First you have to
recreate proper layout
by combining your cube
with other cubes.

After that, you should
place it with correct
orientation and position.



rewind

What would be the consequences
if life had a rewind button?

At some point, Cube will acquire the
fascinating **rewind** power.

In most desperate situations, Cube will be
able to learn from it's mistakes by rewinding.

What would be the consequences if life had a rewind button?

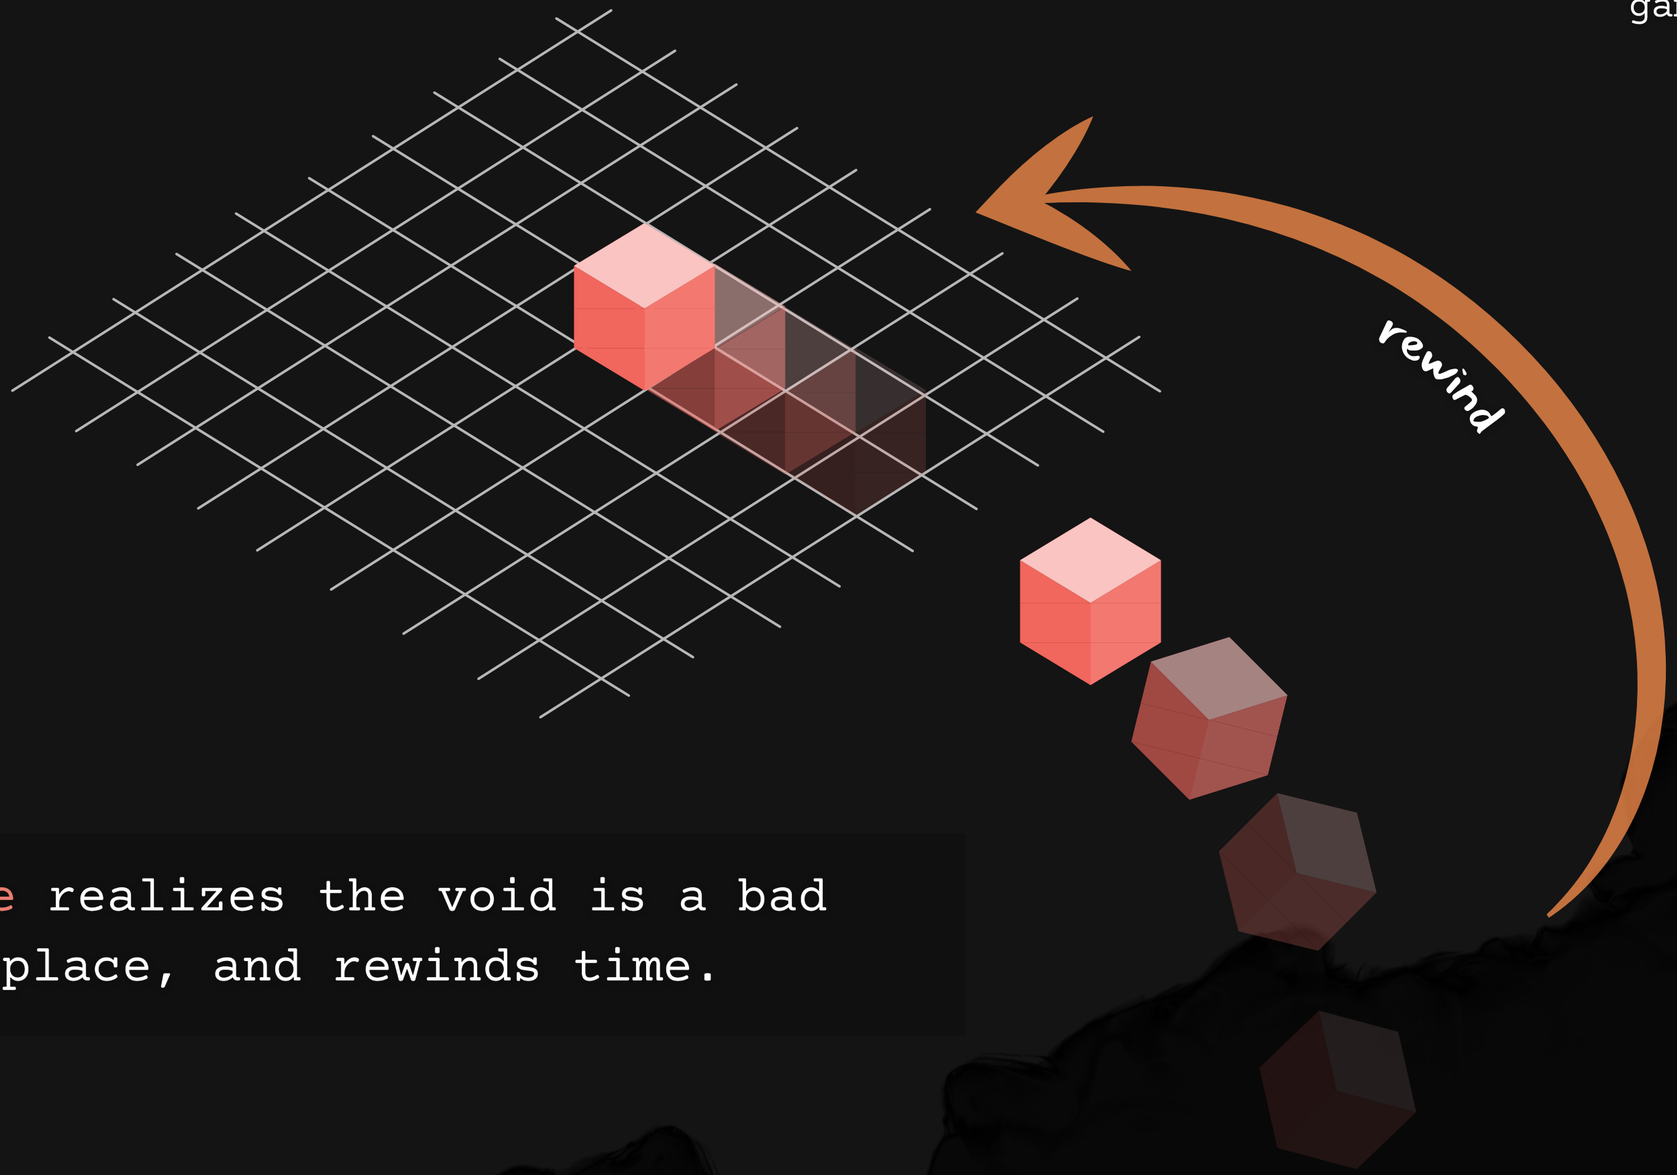
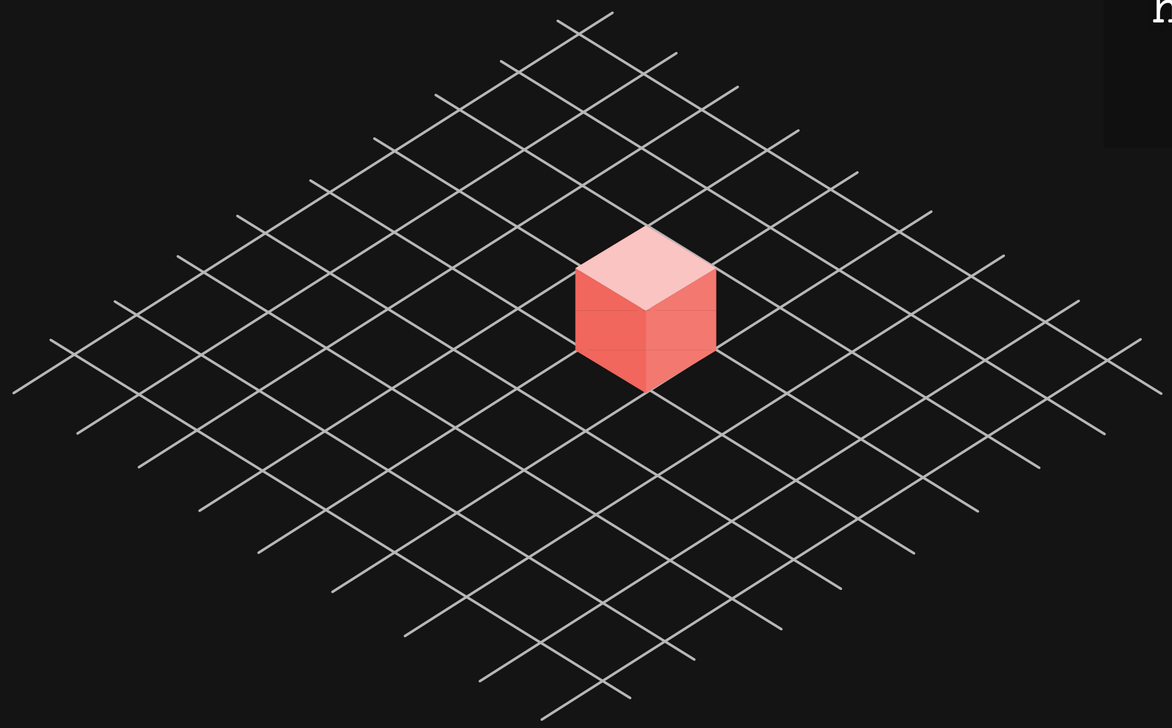
the void

#14



Cube realizes the void is a bad place, and rewinds time.

#15



Cube is saved from the void and hopefully, Cube won't repeat the same mistake again.

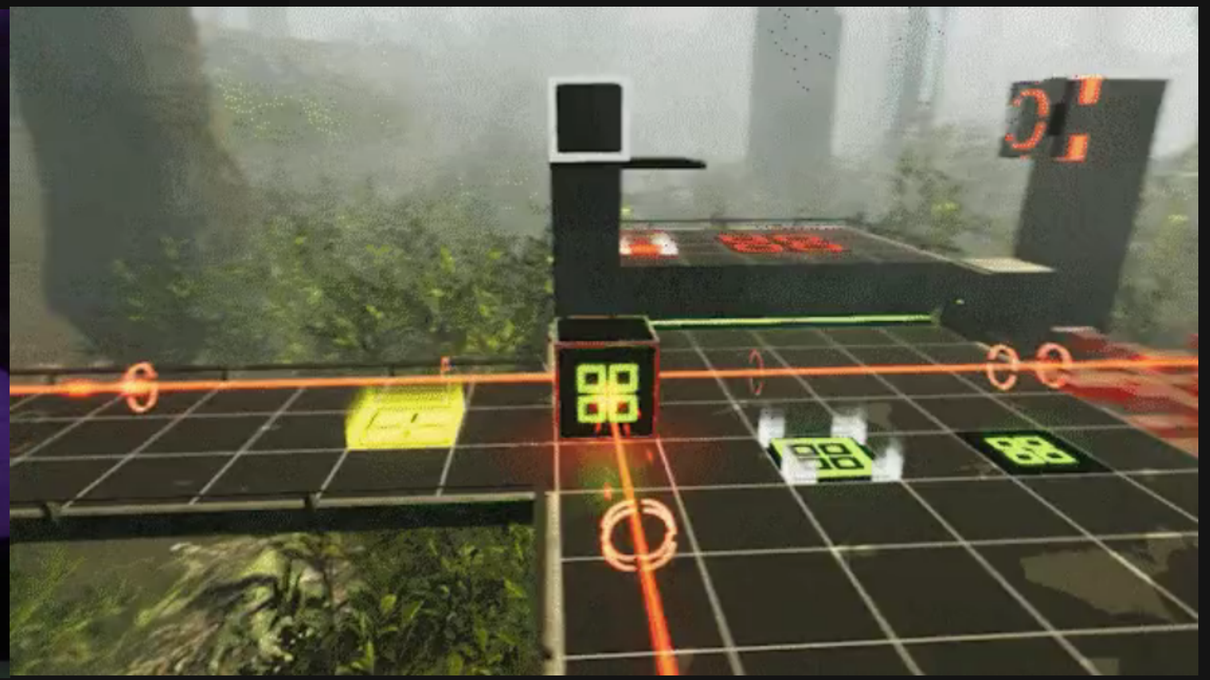
The Last Cube



A Cube Story will try to combine both of these mechanics, wrap them with a good storyline. Thus, we aim to provide diversified and unique puzzle experience.

#24

innovation & creativity

A Cube Story aims to create a unique gameplay experience by balancing challenging gameplay elements which satisfies both the platform and puzzle loving player and a minimalist story that gives purpose to the play.
